

"EMPOWERING KIDS THROUGH ENTREPRENEURSHIP"

TREP\$ Program

REGISTRATION LETTER

TREP\$, the exciting, after-school program, is being conducted by **PSSO (Prince Salman Science Oasis)** in the Diplomatic Quarters (DQ). It is offered to students between **5th through 9th grades**, which is a hands-on program for young entrepreneurs. In it, the children will learn how to start and operate their own businesses! This extracurricular learning opportunity begins with five, about one-and-a-half hour Workshops to teach entrepreneurship skills and life skill. The culmination is the **TREP\$ Marketplace - giving the kids a memory of their lifetime - the night the kids launch their first business**, wherein each child will actually set up a table and sell products or services. Following this there will be the last workshop where the students will retrospect and weigh what they had acquired from the previous endeavor. The entire program will take place over a **7-week period** and should be a unique and wonderful experience for all the participants.

This is not a big commitment. The idea your child pursues can be as basic as a lemonade stand. We will help them with everything from brainstorming business ideas to pricing and display. It should be a fun activity where your children are learning through **DOING**, and having fun all the while - **EDUTAINMENT!**

More information about the **TREP\$ Program** can be found on their website: www.trepsed.com
