

Directions: Complete this form after constructing a Web site designed to communicate your learning about an “e-cessory.” Submit to your teacher along with the Web site Evaluation Rubric.

1. How have you organized the information that you gathered in the research stage of this project in your Web site?
2. How does your organization of the information create an easy-to-use and easy-to-understand Web site?
3. How does the navigational system you designed for this Web site contribute to its ease of use and understanding?
4. How did you use Layers within your Web site?
5. What components did you include on the Dynamic Web Template? Why did you select these items?
6. Describe your greatest challenges in completing this project. How did you conquer these challenges?
7. Describe how your skills and knowledge have grown over the course of this project. What do you know and what can you do that you couldn't before this project?
8. If you could do it again, what would you do differently?
